final figures rose gradually to 75%c, taking about an hour and a half to reach the last named quotation. Chicago received 238 cars of wheat, against 118 the same day of cars of wheat, against 118 the same day of last year, and Minneapolis and Duluth got 235 cars, compared with 239 the year before. The local receipts at Western points were \$78,000 bu. against 723,000 bu. a year ago. Clearances from the seaboard were equal in wheat and flour to 175,000 bu.

The demand for Kansas and Missouri wheat from the domestic milling trade, as reported from Kansas City and St. Louis, was such that the market here became very firm and gradually improved until Sept. touched 75% about five minutes from the close and rested at 75% 675% c. Kansas City reported 200,000 bu. soid for export, and 75,000 bu. No. 1 Northern spring were worked from here. Although some messages from New York relierated yesterday's statement that there was no general export demand, in the end they telegraphed sales for export of 69 boatloads.

Corn.

Corn. Corn.

The premium of about ½c a bu. hitherto paid for Aug. corn over Sept. suddenly disappeared to-day with the delivery on Aug. contracts before the session commenced of about 509,000 bu. That had a weakening effect upon prices. Notwithstanding the wiping out of the premium on the current month's delivery, shipping orders were scarce, which was an added reason for heaviness in the market. The weather, too, was the most favorable for corn that could be desired over the greater part of the region of its growth, so that there was nothing encouraging to bulls except the later firmness of wheat and comparatively small receipts.

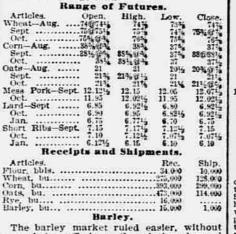

firmness of wheat and comparatively small recelpts.

Chicago received 239 cars, against 326 a year ago, and the total at Western primary markets was 582,000 bu., against 947,000 bu. a year ago. The exports from the seaboard were 485,000 bu. The estimated receipts for to-morrow were 300 cars. New York reported 49 boatloads sold for export. Liverpool quoted 15d rise in futures. Sept. from 234c and 385c, at the immediate opening, dropped gradually to 38c, recovering to 334c, from that declined to 375c and closed at 384331c, a decline for the day of 4205c. Oats.

Oats opened weak and at one time showed a loss of % @1.2c from the close of Tuesday. There was very general selling, much of it apparently against country purchases and inferentially reflecting the increasing movement. When wheat railled, oats recovered slightly. There was a good deal of Aug. pressure early. Deliveries on contract were small.

Local receipts were 252 cars with 315 estimated for to-morrow. The opening price

mated for to-morrow. The opening price for Sept. oats was 21%c, with some at 21%c at the same time. It declined gradually to 21c, reacted to 21%c and closed at 23%c or 1%G1/c lower than it did yesterday. The exports of the day from Atlantic ports were 200,000 bu.
